

**The Township of Lower Office of Emergency Management is reminding our residents that anyone who had suffered water damage as a result of the March 11, 12, 13 Storm to file their application with FEMA at the County Library Main Branch located at 30 West Mechanic Street in Cape May Court House. The FEMA Assistance Team is available to offer financial assistance for those who are eligible. FEMA has several programs to help eligible applicants. Lower Township residents who have filed a claim with FEMA have received their checks already. Do not miss out on this opportunity as the window for filing for assistance is closing. FEMA will stay as long as applicants are applying and will leave the county if no claims are filed.**
