INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and
Members of the Township Council
Township of Lower
County of Cape May, New Jersey

We have audited the accompanying balance sheets – statutory basis of the various funds and account groups of the Township of Lower, State of New Jersey (the "Township"), as of December 31, 2010 and 2009 and the related statements of operations and changes in fund balance – statutory basis for the years then ended and the related statement of revenues – statutory basis and statement of expenditures – statutory basis for the year ended December 31, 2010, as listed in the accompanying table of contents. These financial statements – statutory basis are the responsibility of the Township's management. Our responsibility is to express opinions on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey (the "Division"). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinions.

As described in Note 1, the Township, prepares its financial statements on a basis of accounting prescribed by the Division that demonstrates compliance with a modified accrual basis, with certain exceptions, and the budget laws of the State of New Jersey, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between these statutory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

In our opinion, because of the Township's policy to prepare its financial statements on the prescribed basis of accounting discussed in the preceding paragraph, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the various funds and account groups of the Township, as of December 31, 2010 and 2009 and the results of operations and changes in fund balance of such funds for the years then ended.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Township, as of December 31, 2010 and 2009 and the results of operations and changes in fund balances of such funds for the years then ended and the statement of revenues and statement of expenditures of the various funds for the year ended December 31, 2010 on the basis of accounting described in Note 1.

In accordance with *Government Auditing Standards*, we have also issued a report dated June 10, 2011 on our consideration of the Township's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audits.

Our audits were conducted for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedules as listed in the table of contents are presented for the purpose of additional analysis and are not a required part of the financial statements of the Township. The supplemental schedules have been subjected to the auditing procedures applied to the audit of the financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the financial statements taken as a whole.

Basis of Accounting

The financial statements – statutory basis of the Township of Lower have been prepared in conformity with an "Other Comprehensive Basis of Accounting" (OCBOA), as established by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). The more significant of the Township's accounting policies are described below.

Description of Financial Reporting Entity

The Township of Lower is a mainland community located in the County of Cape May, State of New Jersey. The population according to the 2010 census is 22,945.

The Township is incorporated and operates under a Mayor and Council form of government. There are four council members (three elected from wards and one at-large) and the mayor, who is elected by the people. In addition, a Township Manager, since 1984, supervises all departments, is responsible for the preparation and administration of the annual budget, and is chief executive officer.

Component Units

The financial statements, of the component units of the Township of Lower, are not presented in accordance with Governmental Accounting Standards Board Statement (GASB) No. 14. If the provisions of GASB 14 had been complied with the other entity's financial statements would have to be, either blended, or discretely presented with the financial statements – statutory basis of the Township of Lower, the primary government.

Basis of Presentation, Fund Accounting

The financial statements – statutory basis of the Township of Lower contain all funds and account groups in accordance with the "Requirements of Audit", as promulgated by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Such principles and practices are designed primarily for determining compliance with legal provisions and budgetary restrictions, and as a means of reporting on the stewardship of public officials with respect to public funds. Under this method of accounting, the Township of Lower accounts for its financial transactions through the following separate funds, which differ from the funds required by GAAP.

Current Fund

The Current Fund accounts for resources and expenditures for governmental operations of a general nature, including Federal and State Grant Funds.

Trust Funds

The various Trust Funds account for receipts, custodianship and disbursement of funds in accordance with the purpose, for which, each fund was created.

General Capital Funds

The General Capital Fund accounts for the receipt and disbursement of funds for the acquisition of general facilities other than those acquired in the Current Fund.

Budgets and Budgetary Accounting

The Township of Lower must adopt an annual budget in accordance with N.J.S.A. 40A:4 et al. State statutes require the governing body to introduce and approve the annual municipal budget no later than February 10th of each year. At introduction, the governing body shall fix the time and place for a public hearing on the budget, and must advertise the time and place at least ten days prior to the hearing in a newspaper published and circulating in the municipality. The public hearing must not be held less than twenty-eight days after the date of introduction. After the hearing has been held, the governing body may, by majority vote, adopt the budget or may amend the budget in accordance with N.J.S.A. 40A:4-9.

An extension of the statutory due dates for introduction, approval and adoption of the municipal budget may be granted by the Director of the Division of Local Government Services.

Budgets are adopted on the same basis of accounting utilized for the preparation of the Township's financial statements – statutory basis.

Cash and Investments

New Jersey municipal units are required by N.J.S.A. 40A:5-14 to deposit public funds in a bank approved by the State Department of Banking and Insurance, and organized under laws of the United States or the State of New Jersey or the New Jersey Cash Management Fund. N.J.S.A. 40A:5-15.1 provides a list of securities which may be purchased by New Jersey municipal units.

The cash management plan adopted by the Township of Lower requires it to deposit funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-42 requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

Public funds are defined as the funds of any governmental unit. Public depositories include banks (both state and federal), savings and loan institutions and savings banks, the deposits of which are federally insured. All public depositories pledge collateral, having a market value of five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories in the collateral pool, is available to pay the full amount of their deposits to the governmental units.

Generally, the Township considers all investments that mature in one year or less, to be cash equivalents.

All certificates of deposit are recorded as cash regardless of date of maturity.

Interfunds

Interfund receivables and payables that arise from transactions between funds are recorded by all funds affected by such transactions in the period in which the transaction is executed. Interfund receivables in the Current Fund are recorded with offsetting reserves, which are created by charges to Fund Balance. Income is recognized in the year the receivables are liquidated. Interfund receivables in the other funds are not offset by reserves. GAAP does not require the establishment of an offsetting reserve.

Inventories of Supplies

The costs of inventories of supplies for all funds are recorded as expenditures at the time individual items are purchased. The costs of inventories are not included on the various balance sheets.

General Fixed Assets

Property and Equipment purchased by the Current and General Capital Funds are recorded as expenditures at the time of purchase and are not capitalized.

Accounting for Governmental Fixed Assets, as promulgated by Technical Accounting Directive No. 2, as issued by the Division of Local Government Services, differs in certain respects from GAAP. The following is a brief description of the provisions of the Directive:

Fixed Assets used in governmental operations ("general fixed assets") are accounted for in the General Fixed Assets Account Group. Public Domain ("Infrastructure") fixed assets consisting of certain improvements other than buildings, such as roads, bridges, curbs and gutters, streets and sidewalks, and drainage systems, are not capitalized.

All fixed assets are valued at historical cost or estimated historical cost if actual historical cost is not available.

No depreciation on general fixed assets is recorded in the financial statements – statutory basis.

Expenditures for construction in progress are recorded in the Capital Funds until such time as the construction is completed and put into operation.

Fixed assets acquired through grants – in – aid or contributed capital, have not been accounted for separately.

Foreclosed Property

Foreclosed property is recorded in the Current Fund, at the assessed valuation when such property was acquired, and is fully reserved. Ordinarily, it is the intention of the municipality to resell foreclosed property, in order to recover all or a portion of the delinquent taxes or assessments by returning the property to a taxpaying basis. For this reason, the value of foreclosed property has not been included in the General Fixed Assets Account Group. If such property is converted to municipal use, it will be capitalized in the General Fixed Assets Account Group. GAAP requires property to be recorded at the market value at the time of acquisition.

Deferred Charges

The recognition of certain expenditures is deferred to future periods. These expenditures, or Deferred Charges, are generally overexpenditures of legally adopted budget appropriations made in accordance with N.J.S.A. 40A:4-46 et al. Deferred charges are subsequently raised as items of appropriation in budgets of succeeding years.

Appropriation Reserves

Appropriation Reserves covering unexpended appropriation balances are automatically created at year end and recorded as liabilities, except for amounts which may be canceled by the governing body. Appropriation Reserves are available, until lapsed at the close of the succeeding fiscal year. Lapsed appropriation reserves are recorded as income. Appropriation Reserves are not established under GAAP.

Liens Sold for Other Governmental Units

Liens sold on behalf of other governmental units are not recorded on the records of the tax collector until such liens are collected. Upon their collection, such liens are recorded as a liability due to the other governmental unit net of costs of the sale. The related costs of sale are recognized as revenue when received.

Fund Balance

Fund Balances included in the Current Fund represent amounts available for anticipation as revenue in future years' budgets, with certain restrictions.

Revenues

Revenues are recorded as received in cash, except for certain amounts that are due from other governmental units. Revenue from Federal and State Grants is realized as revenue when anticipated as such in the Township's budget. Other amounts that are due the Township, which are susceptible to accrual, are also recorded as receivables with offsetting reserves, and recorded as revenue when received. GAAP generally requires that grant revenue be recognized when actual expenditures financed by the grant are made.

Property Tax Revenues

Property tax revenues are collected in quarterly installments due February 1st, May 1st, August 1st, and November 1st. Property taxes unpaid on April 1, of the year following their final due date are subject to tax sale in accordance with statutes. The amount of tax levied, includes not only the amount required in support of the Township's annual budget, but also the amounts required in support of the entities that follow. Receivables for property taxes are recorded with offsetting reserves on the balance sheet of the Township's Current Fund; accordingly, such amounts are not recorded as revenue until collected. GAAP requires such revenues to be recognized when they are available and measurable reduced by an allowance for doubtful accounts.

School Taxes

The Township is responsible for levying, collecting and remitting school taxes for the Township of Lower School District, as well as for the Township's share of the Lower Cape May Regional High School District. Fund Balance is charged for the full amount required to be raised from taxation to operate the school districts from January 1st through December 31st. Deferred school taxes arise due to the differences in the municipal and school district fiscal year ends. As of December 31, 2010, the following is a breakdown of the school tax payable and year-end tax deferral:

Category	Amount
Regional School Tax Payable	\$ -
Regional School Tax Deferred	5,830,803.51
	\$ 5,830,803.51

County Taxes

The Township is responsible for levying, collecting and remitting county taxes for the County of Cape May. Fund Balance is charged for the amount due the County for the year, based upon the ratables required to be certified to the County Board of Taxation by January 10th of the current year. In addition, Fund Balance is charged for the County Share of Added and Omitted Taxes, certified to the County Board of Taxation by October 10th of the current year, and due to be paid to the County by February 15th of the following year.

Reserve for Uncollected Taxes

The inclusion of the "Reserve for Uncollected Taxes", appropriation in the Township's annual budget protects the Township from taxes not paid currently. The minimum amount of the reserve, determined by the percentage of collections experienced in the preceding year, is required to provide assurance that cash collected in the current year will provide sufficient cash flow to meet expected obligations. A Reserve for Uncollected Taxes is not established under GAAP.

Expenditures

Expenditures are recorded on the "budgetary" basis of accounting. Generally, expenditures are recorded when an amount is encumbered for goods or services through the issuance of a purchase order, in conjunction with the encumbrance system. Outstanding encumbrances at December 31st are recorded as a cash liability. Appropriations for principal payments on outstanding General Capital Fund bonds and notes are provided on the cash basis. Interest on General Capital Fund indebtedness is on the cash basis. GAAP requires expenditures to be recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on long – term debt, which is recognized when due.

Compensated Absences and Post – Employment Benefits

Compensated absences for vacation, sick leave and other compensated absences are recorded and provided for, in the annual budget in the year in which they are paid, on a “pay as you go” basis. Likewise, no accrual is made for post employment benefits, if any, which are also funded on a “pay as you go” basis. The Township has established a reserve in the amount of \$481,543.93 to fund some of these costs. GAAP requires that the amount that would normally be liquidated with expendable financial resources, be recorded as an expenditure in the operating funds, and the remaining obligations be recorded as long – term obligations.

NOTE 3: COMPENSATED ABSENCES

The Township has permitted employees to accrue unused vacation, personal and sick time, which may be taken as time off or paid at a later date at an agreed upon rate. The monetary value of these earned and unused employee benefits has not been accrued by, either charges to operations, or to budgets of prior years, although in some cases they might be material, since the realization of this liability may be affected by conditions which preclude an employee from receiving full payment of the accrual. At December 31, 2010, the Township estimates this liability to approximate \$3,285,690.35, based on 2010 pay rates and compensated absence balances. The Township has established a reserve in the amount of \$481,543.93 to offset this liability.

Plan Descriptions

All eligible employees participate in the Public Employees' Retirement System (PERS) or the Police and Firemen's Retirement System (PFRS) contributory defined benefit public employee retirement systems that have been established by State Statute. These systems are sponsored and administered by the State of New Jersey.

The Public Employees' Retirement System was established in January 1955, under the provisions of N.J.S.A. 43:14A, to provide coverage including post-retirement health care to substantially all full-time employees of the State or any County, Municipality, School district or public agency, provided the employee is not a member of another state-administered retirement system.

The Police and Firemen's Retirement System was established in July 1944, under the provisions of N.J.S.A. 43:16A, to provide coverage to substantially all full-time County and Municipal police or firemen and State firemen appointed after June 30, 1944.

The Defined Contribution Retirement Program (DCRP) was established July 1, 2007, under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, and expanded under the provisions of Chapter 89, P.L. 2008. The DCRP provides eligible employees and their beneficiaries with a tax-sheltered, defined contribution retirement benefit, along with life insurance coverage and disability coverage.

The State of New Jersey, Department of Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information for PERS and PFRS. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, P.O. Box 295, Trenton, NJ 08625-0295.

Significant Legislation

During the year ended June 30, 1997, legislation was enacted authorizing the New Jersey Economic Development Authority (the "Authority"), to issue bonds, notes or other obligations for the purpose of financing, in full or in part, the State of New Jersey's portion of the unfunded accrued liability under the State of New Jersey retirement systems. On June 30, 1997, the Authority issued bonds pursuant to this legislation, and \$241,106,642 from the proceeds of the Bonds were deposited into the investment accounts of PERS.

Vesting and Benefit Provisions

The vesting and benefit provisions for PERS are set by N.J.S.A. 43:15A and 43:3B. All benefits vest after eight to ten years of service, except for medical benefits, which vest after 25 years of service. Retirement benefits for age and service are available at age 60 and, under recently enacted legislation are generally determined to be 1/55 of final average salary for each year of service credit. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years service credit, or they may elect deferred retirement after achieving eight to ten years of service credit, in which case benefits would begin the first day of the month after the member attains normal retirement age.

The vesting and benefit provisions for PFRS are set by N.J.S.A. 43:16A and 43:3B. All benefits vest after ten years of service, except for disability benefits, which vest after four years of service. Retirement benefits for age and service are available at age 55, and generally determined to be 2% of final average compensation for each year of creditable service, as defined, up to 30 years plus 1% for each year of service in excess of 30 years. Final average compensation equals the average compensation for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek special retirement after achieving 20 or 25 years of creditable service, or they may elect deferred retirement after achieving ten years of service, in which case benefits would begin at age 55, equal to 2% of final average compensation for each year of service.

Newly elected or appointed officials that have an existing DCRP account, or are a member of another State-administered retirement system are immediately invested in the DCRP. For newly elected or appointed officials that do not qualify for immediate vesting in the DCRP, employee and employer contributions are held during the initial year of membership. Upon commencing the second year of DCRP membership, the member is fully invested. However, if a member is not eligible to continue in the DCRP for a second year of membership, the member may apply for a refund of the employee contributions from the DCRP, while the employer contributions will revert back to the employer.

Funding Policy

The contribution policy for PERS is set by N.J.S.A. 43:15A, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. Members contribute at a uniform rate. In accordance with Chapter 415, P.L. 1999, the member rate was set at 5.5% of base salary. Employers are required to contribute at an actuarially determined rate. The annual employer contribution includes funding for basic retirement allowances, cost-of-living adjustments and noncontributory death benefits.

The contribution policy for PFRS is set by N.J.S.A. 43:16A and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. Employers are required to contribute at an actuarially determined rate. The annual employer contribution includes funding for basic retirement allowances, cost-of-living adjustments and noncontributory death benefits. Members contribute at a uniform rate of 8.5% of base salary.

For the DCRP, members contribute at a uniform rate of 5.5% of their base salary. Employers are required to contribute at a set rate of 3.0% of base salary.

For the Public Employees' Retirement System, the Township's contribution was \$529,657.00 for 2010 and was \$393,006.40 for 2009.

For the Police and Firemens' Retirement System, the Township's contribution was \$845,716.00 and \$682,066.00 for 2010 and 2009 respectively.

For the DCRP, the Township's contribution was \$4,150.03 for 2010.

Cash

Operating cash, in the form of checking, savings and money market savings accounts, is held in the Township's name by several commercial banking institutions. At December 31, 2010, the carrying amount of the Township's deposits was \$7,962,453.53 and the bank balance was \$8,416,449.44. Of the bank balance, \$432,867.08 was insured with Federal Deposit Insurance Corporation and \$7,905,328.26 with GUDPA.

Pursuant to GASB Statement No. 40, "Deposit and Investment Risk Disclosures" ("GASB 40"), the Township's bank accounts are profiled in order to determine exposure, if any, to Custodial Credit Risk (risk that in the event of failure of the counterparty the Township would not be able to recover the value of its deposits or investment). Deposits are considered to be exposed to Custodial Credit Risk if they are: uncollateralized (securities not pledged to the depositor), collateralized with securities held by the pledging financial institution, or collateralized with securities held by the financial institution's trust department or agent but not in the government's name. At December 31, 2010, all of the Township's deposits were insured by either FDIC or GUDPA and therefore not exposed to custodial credit risk. The Township does not have a policy for custodial credit risk, other than the statutory requirements of utilizing only GUDPA institutions.

Investments

Pursuant to the Enabling Act, the funds of the Township may be invested in any direct obligations of, or obligations as to which the principal and interest thereof is guaranteed by, the United States of America or other obligations as the Township may approve. It invests pooled monies from various State and non-State agencies in primarily short-term investments.

As of December 31, 2010, the Township did not have any investments.

NOTE 8: PROPERTY TAXES

Property valuations (assessments) are determined on true values as arrived at by a cost approach, market data approach and capitalization of net income where appropriate. Current assessments are the results of new assessments on a like basis with established comparable properties for newly assessed or purchased properties. This method assures equitable treatment to like property owners, but it often results in a divergence of the assessment ratio to true value.

Upon the filing of certified adopted budgets by the municipality, the local and regional school districts, and the county, the tax rate is struck by the County Board of Taxation based on the certified amounts in each of the taxing districts for collection to fund budgets. The statutory provision for the assessment of property, levying of taxes and the collection thereof is set forth in N.J.S.A. 54:4 et seq. Special taxing districts are permitted in New Jersey for various special services rendered to the properties located within the special districts.

Tax bills are mailed annually in June. The taxes are due August 1 and November 1 respectively, and are adjusted to reflect the current fiscal year's total tax liability. The preliminary taxes, due February 1 and May 1 of the succeeding fiscal year, are based upon one-half of the current year's total tax.

Tax installments not paid on or before the due date, are subject to interest penalties of 8% per annum on the first \$1,500 of the delinquency, and 18% per annum on any amount in excess of \$1,500. Pursuant to P.L. 1991, c. 75, the governing body may also fix a penalty to be charged to a taxpayer with a delinquency in excess of \$10,000 who fails to pay that delinquency prior to the end of the calendar year. The penalty so fixed shall not exceed 6% of the amount of the delinquency. The interest and penalties are the highest permitted under New Jersey Statutes. Delinquent taxes open for one year or more are annually included in the tax sale in accordance with New Jersey statutes.

The New Jersey statutes provide a taxpayer with remedial procedures for appealing an assessment deemed excessive. Prior to February 1 of each year, the municipality must mail to each property owner a notice of the current assessment and taxes on the property. The taxpayer has a right to petition the County Tax Board, on or before April 1, for review. Due to errors or delinquencies in notices sent to property owners, the April 1 deadline to file an appeal petition may be extended. The County Board of Taxation has the authority after a hearing to decrease or reject the appeal petition. These adjustments are usually concluded within the current tax year, and reductions are shown as canceled or remitted taxes for that year. If the taxpayer feels the County Board of Taxation unsatisfactorily reviewed the petition, appeal may be made to the Tax Court of New Jersey for further hearing. Some Tax Court appeals may take several years prior to settlement, and any losses in tax collection from prior years, are charged to a reserve set aside for this purpose or directly charged to Fund Balance.

NOTE 12: BUDGETARY DATA

Annually, Township Council adopts the annual appropriation budgets for the Current Fund and the Capital Improvement Plan. Once approved, the Township Council may amend the legally adopted budget when unexpected modifications are required in estimated revenues and appropriations.

Supplemental appropriations per N.J.S.A. 40A:4-46 and 54, Emergencies and Special Emergencies, become charges against the budget of the following year per N.J.S.A. 40A:4-47 except when financing is provided for by bonding ordinances.

Budget transfers between appropriation accounts are prohibited until the last two months of the year. The Township Council approves the transfers by Resolution. Budgetary transfers during the year were not significant.

NOTE 13: FEDERAL AND STATE GRANTS

In the normal course of operations, the Township receives grant funds from various Federal and State agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement, which may arise as a result of these audits, is not believed to be material.

NOTE 14: GENERAL FIXED ASSETS

The following schedule is a summarization of the changes in General Fixed Assets for the year ended December 31, 2010:

	Balance as of December 31, 2009	Additions	Disposals	Balance as of December 31, 2010

NOTE 16: LITIGATION

The Township is a defendant in several legal proceedings that are in various stages of litigation. It is believed that the outcome from such litigation is unknown and potential losses if any would not be material to the financial statements.

NOTE 17: POST- RETIREMENT BENEFITS

The Township offers medical, prescription drug, dental and vision coverage to eligible retirees and their dependants.

Effective January 21, 2009, the Township participates New Jersey State Health Benefits Program ("the SHBP"), which qualifies as a cost-sharing, multiple-employer plan in accordance with GASB Statement 45 "Accounting and Financial Reporting by Employers for Post-employment Benefits Other Than Pensions" ("OPEB"). The SHBP is administered by the State of New Jersey, Department of Treasury, Division of Pension and Benefits.

Under the SHBP, retirees may continue the health benefits programs in which they are enrolled at the time of retirement, provided the retiree pays the costs of the benefits (at group rates) for themselves and their eligible dependents.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of the SHBP. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey 08625-0295.

The SHBP is established under the authority of N.J.S.A. 52:14-17.25 et seq. and regulations adopted by the State Health Benefits Commission. The required contribution rate is determined on an annual pay as you go basis. The following were the required contributions:

2010 -	\$2,447,358.17
2009 -	\$1,653,937.06
2008 -	Not Applicable

The Township provides twenty-four retirees with dental costs from Delta Dental. The following is an alternate valuation method, which is used when the number of retirees receiving a benefit is less than 100.

Annual OPEB Cost and Net OPEB Obligation

The Township's annual OPEB cost represents the accrued cost for post-employment benefits under GASB 45. The cumulative difference between the annual OPEB cost and the benefits paid during a year will result in a net OPEB obligation. The annual OPEB cost is equal to the annual required contribution (ARC) less adjustment if a net OPEB obligation exists. The ARC is equal to the normal cost and amortization of the Unfunded Actuarial Accrued Liability (UAAL) plus interest.

Actuarial Methods and Assumptions

Actuarial valuations of an ongoing plan involve estimates and assumptions about the probability of occurrences of events far into the future, including future employment, mortality and healthcare cost trends. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS – STATUTORY BASIS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

To the Honorable Mayor and
Members of the Township Council
Township of Lower
County of Cape May, New Jersey

We have audited the financial statements – statutory basis of the Township of Lower, State of New Jersey (the "Township"), as of and for the year ended December 31, 2010, and have issued our report thereon dated June 10, 2011. Our report disclosed that, as described in Note 1 to the financial statements, the Township prepares its financial statements on a basis of accounting prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey (the "Division"), that demonstrates compliance with a modified accrual basis of accounting and the budget laws of the State of New Jersey, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and audit requirements prescribed by the Division.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Township's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Township's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Township of Lower's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Division.

We noted certain matters that we reported to management of the Township of Lower in a separate letter dated June 10, 2011.

This report is intended solely for the information and use of management, the Township Council, others within the entity, and the Division as well as other federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

TOWNSHIP OF LOWER

GENERAL COMMENTS

Contracts and Agreements Required to be Advertised for N.J.S.A. 40A:11-4

N.J.S.A. 40A:11-4 states, "Every contract awarded by the contracting agent, for the provision or performance of any goods or services, the cost of which in the aggregate exceeds the bid threshold, shall be awarded only by resolution of the governing body of the contracting unit to the lowest responsible bidder after public advertising for bids and bidding therefor, except as is provided otherwise in this act or specifically by any other law." On July 1, 2005 the Township's bid threshold was increased to \$29,000 with the appointment of a Qualified Purchasing Agent "QPA".

The governing body of the Township of Lower has the responsibility of determining whether the expenditures in any category will exceed the bid threshold within the fiscal year. Where question arises as to whether any contract or agreement might result in a violation of the statute, the Township Council's opinion should be sought before a commitment is made.

Our examination of expenditures did not reveal any payments in excess of the bid threshold for the provision or performance of any goods or services, other than those where bids had been previously sought by public advertisement, awarded under state or county cooperative purchasing agreements, or awarded in compliance with other provisions of the "Local Public Contracts Law," N.J.S.A. 40A:11.

The minutes indicate that bids were sought by public advertising for the following items:

- Delaware Bay Shore Outfall Extensions
- Roofing and exterior repairs of public safety building
- 2010 Field Maintenance Contract for the Freeman Douglass Memorial Park
- 12 Month HVAC service agreement for various locations
- Fishing Creek school roof
- 2 2010 Dodge Chargers with V8 Hemi Engine
- Miscellaneous Material/Supplies for outfall drainage project
- Tideflex Check Valves or equal for outfall drainage project
- Chassis Mount 25 yard municipal leaf loader

Collection of Interest on Delinquent Taxes and Assessments

The statutes provide the method for authorizing interest and the maximum rates to be charged for the nonpayment of taxes or assessments on or before the date when they would become delinquent.

The governing body adopted the following resolution authorizing interest to be charged on delinquent taxes:

BE IT RESOLVED by the Township Council of the Township of Lower, in accordance with Chapter 75, New Jersey Laws of 1991, and N.J.S.A. 54:4-67, 54:5-32, 54:5-34 and 54:5-35, which authorizes the Governing Body inter alia to fix the rate of interest to be charged, in the Township of Lower, for the nonpayment of taxes, assessments and municipal charges, said rate of interest shall be and is hereby fixed at 8 per cent per annum on the first \$1,500 of delinquency and 18 per cent per annum on any amount in excess of \$1,500 to be calculated from the date when the taxes, assessments and charges become delinquent.

TOWNSHIP OF LOWER

GENERAL COMMENTS (CONTINUED)

Collection of Interest on Delinquent Taxes and Assessments - Continued

BE IT FURTHER RESOLVED by the Township Council of the Township of Lower, in accordance with N.J.S.A. 54:4-67, Chapter 75, New Jersey Laws of 1991, and Chapter 32, New Jersey Laws of 1994, which permits a 6 per cent penalty on taxes and municipal charges greater than \$10,000 as of the close of the fiscal year, that said end-of-year penalty shall be fixed for the Year 2010.

This Resolution shall take effect January 1, 2010.

It appears from an examination of the collector's records that interest was charged in accordance with the foregoing resolution.

Delinquent Taxes and Tax Title Liens

The tax sale was held and was complete. Inspection of tax sale certificates on file revealed that all tax sale certificates were available for audit.

The following comparison is made of the number of tax title liens receivable on December 31st of the last three years:

<u>Year</u>	<u>Number</u>
2010	42
2009	29
2008	13

It is essential to good management that all means provided by the statutes be utilized to liquidate tax title liens, in order to get such properties back on a tax-paying basis.

Verification of Delinquent Taxes and Other Charges

A test verification of delinquent taxes and charges, as well as current payments was made in accordance with the regulations of the Division of Local Government Services, including the mailing of verification notices as follows:

<u>Type</u>	<u>Number Mailed</u>
Payments of 2010 and 2011 Taxes	25
Delinquent Taxes	25
Total	<u>50</u>

Deposit of Municipal Funds

N.J.S.A. 40A:5-15 states:

"All moneys, including moneys collected by taxation, received from any source by or on behalf of any local unit or any board or department thereof shall, within 48 hours after the receipt thereof, either

- a. be paid to the officer charged with the custody of the general funds of the local unit, who shall deposit all such funds within 48 hours after the receipt thereof to the credit of the local unit in its designated legal depository, or
- b. be deposited to the credit of the local unit in its designated legal depository."

Our examination revealed that municipal funds were deposited within the mandated time.
