

LOWER TOWNSHIP MAYOR, FRANK SIPPEL

SHARES IMPORTANT UPDATES

Hi, this is Lower Township Mayor Frank Sippel here to provide a weekly update. As I mentioned in the last call I am optimistic that the worse will soon be behind us. However we must continue to practice social distancing and follow the guidance of our health experts. This past Monday Lower Township government hosted a virtual meeting with many of our business owners in Lower Township. We had a representative from Congressman Van Drew's office and Assemblyman Simonsen on the meeting. Our goal was to provide all the resources available and listen to their concerns. The better prepared our businesses are the better for our hard working families.

Just a reminder that there is a lot of information on the township website to help with those affected with the coronavirus. There is also a listing of all the food banks in Lower Township on this website. Please visit the website www.townshipoflower.org . We have seen around a 200 percent increase of families using the food banks. If you are in a position to donate please contact one of our food banks, it will be greatly appreciated.

Anyone that is experiencing difficulty with filing for unemployment or any other state issue please contact Assemblyman Simonsen's office at 609-778-2012, again that is 609-778-2012. We all want this to end, including myself very much, we are working very hard to mitigate the spread of this virus and at the same time how to transition back to some type of normal. Most of the restrictions have come from the Governor's office, we are in constant communication with his office to protect the interest of Lower Township residents. God bless everyone and please stay safe. Thank you.
