April 11, 2012

Paving Delayed

The paving of Seashore Road, Route 9, Tabernacle Road, and Breakwater Road scheduled to be paved at night this week has been delayed for 2 weeks. The delay is due to a piece of equipment called an "Asphalt Transferring machine" that is committed on another job. All paving will start Monday night April 30th, and the paving will be throughout the week until completions. All roadways will be open during the day while this project is ongoing.
