**Re: Proposal for Engineering Services
2013 Hurricane Sandy Coastal Resiliency
Competitive Grants Program
Township of Lower, Cape May County, NJ
EDA #6766
Proposal #14-152**

Dear Bill:

I am pleased to offer the following proposal for engineering services for the referenced project.

SCOPE OF SERVICES

ESTIMATED FEE(S)

- I. Preparation of engineering, surveying and environmental services as described in the attached Scope of Work.

Not to Exceed \$250,000.00

FEE

The estimated cost for the above items shall not exceed \$250,000.00 for the engineering services and does include the cost of surveying services. This amount is Engineering Design Associates' best estimate of professional fees required to complete the project as defined. Except as provided for in the General Conditions below, the project scope will not be altered without written notice.

You will be billed monthly, which will be directly related to the hours spent on the project multiplied by our current billing rates.

All application fees or escrow accounts required by any reviewing agency or their consultants shall be the sole responsibility of the client and are not included as part of this proposal.

Any payment due for services and expenses outstanding for a period of thirty (30) days or more shall include a charge at a rate of 1½% per month from said thirtieth day. Should it be necessary to enforce collection of any part of the fee for services rendered, the undersigned agrees that they shall be liable for cost of collection without exception. Take notice, this agreement is personally guaranteed by the individuals executing this agreement on behalf of any corporation.

Any account delinquent past sixty (60) days may necessitate the stopping of all work.

Payment of our fees for professional services rendered is in no way contingent upon approval of our plans or documentation by any agency reviewing the same.

GENERAL CONDITIONS

Engineering Design Associates will prepare plans, maps, calculations and reports in accordance with established professional practices and applicable rules and regulations governing the project. The preparation of the plans as specified above, does not imply or guarantee approval of same by any reviewing agency.

The scope of work does not include any items not specifically mentioned. If the scope of work is modified substantially by the requirements of the Client, Planning/Zoning Board or any other reviewing agency, the fees within the agreement shall be subject to negotiation. Not included in this proposal are revisions to plans required by any agency reviewing the same. All revisions will be invoiced on a time and material basis using the rate schedule attached.

Engineering Design Associates is primarily employed to obtain approvals for permits necessary for construction to begin. Most site visits performed by Engineering Design Associates are done prior to construction. Any visits occurring after construction has begun are due to changes requested by the applicant and are for informative purposes only. No site visit performed by Engineering Design Associates should be considered a site inspection.

Based upon our contracted responsibilities, Engineering Design Associates shall not be held responsible for any site safety issues that occur during the construction process. Responsibility for site safety shall be individually contracted by the applicant with the contractor or other responsible party. If required, the Client shall be responsible for the publication of all Public Notices, including any notices to property owners within a 200 feet radius of the project site unless specifically included within the Scope of Services.

The consultant is authorized to subcontract any portion of the work to be performed without the written consent of the Client.

It is understood that copies of the original drawings and reports shall become the property of the client when all outstanding invoices, billings and charges have been paid. All original plans and other documents as instruments of services shall remain the property of Engineering Design Associates.

The client shall not assign his interest in the contract or project without the consultant's written consent.

Items of work not scheduled above and/or performed more than once, will be considered extra work and invoiced at current hourly rates.

The proposed fees and schedule constitute Engineering Design Associates' best estimate of the charges and time required to complete the project. The project scope will not be altered without written mutual agreement. On projects involving conceptual work, activities are often not fully definable in the initial planning. As the project progresses, the facts uncovered may dictate a change in scope. Engineering Design Associates shall inform the client of such situations so that a renegotiation can be accomplished.

Fee and schedule commitments will be subject to renegotiation for delays caused by Client's failure to provide specified facilities or information, or for delays caused by unpredictable occurrences of force majeure, such as fire, floods, riots, strikes, unavailability of labor or materials or services, process shutdown, acts of God or of the public enemy, or acts or regulations of any governmental agency.

This proposal is valid for a period of thirty (30) days. Upon expiration of the period of time, Engineering Design Associates reserves the right to review the proposed basis of payment and fees, to allow for changing costs, as well as to adjust the time of performance to conform to workloads.

In the event that this agreement is entirely terminated or the work is abandoned in whole or in part with or without cause, Engineering Design Associates shall be paid such part of the fee as earned to the date of termination. Notice of termination shall be given in writing by Certified Mail.

No cancellation of this project by the client will be effective unless seven (7) days written notice thereof, together with the reasons and details therefore, has been received by Engineering Design Associates. A final invoice, calculated on the first or fifteenth of the month (whichever comes first) following receipt of such cancellation notice and the elapse of the seven (7) day cancellation period (the effective date of cancellation).

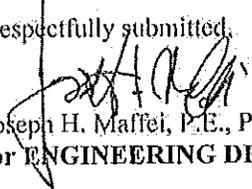

- a. Where the method of payment is "Lump Sum," Client agrees that the final invoice will be based on the percentage of work completed to the effective date of cancellation, plus an equitable reasonable adjustment to provide for costs Engineering Design Associates incurs for commitments made firm before cancellation.
- b. Where the method of payment is time and materials, Client agrees that the final invoice will include all services and direct expenses up to the effective date of cancellation, plus an equitable reasonable adjustment to provide for costs Engineering Design Associates incurs for commitments made firm before cancellation.

Engineering Design Associates will prepare all work in accordance with generally accepted professional practices. It is not the intention of Engineering Design Associates to provide services inconsistent with or contrary to such practices, or to make any warranty or guarantee, expressed or implied, nor to have any agreement or contract for services subject to the provisions of the Uniform Commercial or Specialty Code. Engineering Design Associates does not imply or guarantee the approval or issuance of permits by any individual or agency.

No work shall be commenced until we are in receipt of this signed proposal. Receipt of same shall be considered authorization to proceed with the work described within this proposal. Please indicate your acceptance of this proposal by signing in the space provided below and return one (1) copy to our office. For your convenience, EDA now offers the option of payment via credit card (i.e., Visa, Master Charge, American Express).

Thank you for giving Engineering Design Associates this opportunity to offer our services. If you have any questions or would like to discuss any aspect of this proposal, please do not hesitate to contact our office.

Respectfully submitted,

Coastal Resiliency
Competitive Grants Program**

FINAL - October 23, 2014

Scope of Work

The project limits are from the Cape May Lewes Ferry Terminal on the Cape May Canal to Fishing Creek. This equates to over 5 miles of coastline along the Delaware Bay. The project area then extends inland approximately 2 miles and encompasses approximately 2,800 acres. This includes various tributaries to the Delaware Bay such as Fishing Creek and Cox Hall Creek.

Task 1 shall be to develop aerial survey maps with location in NAD83 and elevations in NAVD 88 of the Fishing Creek Watershed, the Cox Hall Creek Watershed, the coastline from Fishing Creek to Cox Hall Creek and the coastline from Cox Hall Creek to the Cape May Canal. This shall also include existing dune systems, berms and other beach conditions

Task 1 is expected to take three months to complete and to provide aerial topographic surveys by June 1, 2015.

Task 2 shall be the evaluation of the aerial surveys, comparison to FEMA Preliminary Work Maps and field investigations to identify areas in need of enhancement and restoration. The coastline consists of various existing flood protection measures, including dunes, bulkheads, vegetated shorelines and revetments. The objective is to identify these areas and provide additional ecologically-sound measures to provide flood protection and habitat restoration. These may include beachfill, dune creation, etc.

Both Cox Hall Creek and Fishing Creek have infrastructure in place to control outfall of stormwater. Both of these outfall structures shall be evaluated to ensure a flood event can be accommodated and also increase tidal flow through the tidegate structure to restore and enhance the salt marshes which are approximately 60% of the 2,800 acre project area. This portion of the project shall pick up where Cape May County's 319(h) Grant ended.

The Cape May County 319(h) grant provided valuable information back in 2002-2003 and included infrastructure improvements. Lower Township shall now be able to evaluate the improvements and provide additional improvements and restoration to ensure they incorporate the new FEMA Flood Maps, are providing sufficient flow to restore the salt meadows and are providing the flood protection needed.

During Task 2, an evaluation of the project area shall be done to identify areas of habitat, restoration for the protection of piping plovers, redknobs and horseshoe crabs. The coastline consists of various existing flood protection measures include dunes, bulkheads, vegetated shorelines and revetments. Task 2 is expected to take two months to complete and provide a defined scope of work and concept design for restoration and enhancement by August 1, 2015.

Task 3 shall be the development of final design plans for the restoration and enhancement of the areas identified in Task 2.

Task 3 is expected to take three months to complete and provide final plans by November 1, 2015.

Task 4 shall be the preparation and submission of application packages for the various governmental agencies, including NJDEP CAFRA, NJDEP Waterfront Development, NJDEP Coastal Wetlands, NJDEP Freshwater Wetlands, NJDEP Flood Hazard, U.S. Army Corps of Engineers, Federal Emergency Management Agency and Cape-Atlantic Soil Conservation District.

Task 4 is expected to take two months to complete and provide submission application packages by January 1, 2016.

Task 5 shall be the review period for the various governmental agencies. Task 5 is expected to take nine months to complete and provide approved permits by October 1, 2016. Lower Township shall provide the required permit fees for the various applications.

Task 6 shall be the preparation of final plan revisions as a result of the various agency reviews and permit conditions.

Chapter 95. PROFESSIONAL SERVICE CONTRACTS, REGULATION OF

[HISTORY: Adopted by the Township Council of the Township of Lower 10-4-2004 by Ord. No. 2004-10. Amendments noted where applicable.]

§ 95-1. Definitions.

As used in this chapter, the following terms shall have the meanings indicated:

BUSINESS ENTITY SEEKING A PUBLIC CONTRACT -- An individual, including the individual's spouse, if any, and any child living at home, person, firm, corporation, professional corporation, partnership, organization or association. The definition of a business entity includes all principals who own 10% or more of the equity in the corporation or business trust, partners, and officers in aggregate employed by the entity as well as any subsidiaries directly controlled by the business entity.

PROFESSIONAL BUSINESS ENTITY -- A business entity as defined in this section which provides services by individuals who are required to be professionally licensed under the laws or regulations of this State or which provides "extraordinary unspecifiable services" pursuant to N.J.S.A. 40A:11-5(1)(a)(ii).

§ 95-2. Prohibition of awarding public contract to certain contributors.

A. Any other provision of law to the contrary notwithstanding, the Township of Lower or any of its purchasing agents or agencies or those of its independent authorities, boards or commissions, as the case may be, shall not enter into an agreement or otherwise contract to procure services from any professional business entity if that entity has solicited or made any contribution of money or pledge of a contribution, including in-kind contributions, to a campaign committee of any candidate for or holder of the office of Mayor or Council of the Township of Lower or to any Township of Lower political party committee in excess of the thresholds specified in Subsection C of this section within one calendar year immediately preceding the date of the contract or agreement.

B. No professional business entity which enters into negotiations for or agrees to any contract or agreement with the Township of Lower or any department or agency thereof or of its independent authorities, boards or commissions for the provision of professional services shall knowingly solicit or make any contribution of money or pledge of a contribution including in-kind contributions in excess of the thresholds specified in Subsection C of this section to a campaign committee of any candidate for or holder of the office of Mayor or Council of the Township of Lower or to any Township of Lower political party committee between the time of first communications between that business entity and the Township of Lower regarding a specific professional services agreement and the later of the termination of negotiations or the completion of the contract or agreement.

C. Notwithstanding Subsections A and B above, any individual who is a professional business entity may annually contribute a maximum of \$250 each for any purpose to any candidate for or holder of the offices of Mayor or Council of the Township of Lower, or \$500 to any Township of Lower political party committee, without violating this § 95-2; provided, however, that no group of individuals meeting the definition of a professional business entity may, in the aggregate, contribute annually for any purpose in excess of \$2,500 to all Township of Lower candidates for or holders of the offices of Mayor or Council and all Township of Lower political party committees combined without violating § 95-2.

§ 95-3. Contributions made prior to the effective date.

No contribution of money or any other thing of value, including in-kind contributions, made by a professional business entity to any candidate for or holder of the office of Mayor or Council of the Township of Lower or Township of Lower political party committee shall be deemed a

violation of this chapter, nor shall an agreement for services be disqualified thereby, if that contribution or agreement was made by the professional business entity prior to the effective date of this chapter.

§ 95-4. Contribution statement required by professional business entity.

A. Prior to awarding any contract or agreement to procure services with any professional business entity, the Township or any of its purchasing agents or agencies or independent authorities, boards or commissions, as the case may be, shall receive a sworn statement from the professional business entity made under penalty of perjury that the professional business entity has not made a contribution in violation of § 95-2.

B. Prior to awarding any contract or agreement to procure services with any professional business entity, the Township or any of its purchasing agents or agencies or independent authorities, boards or commissions, as the case may be, shall also receive a sworn statement from the professional business entity made under penalty of perjury disclosing all contributions made by the professional business entity during the immediately preceding 12 months to any New Jersey state and/or county political party committees which contributions, when added to any contributions made to any Township of Lower political party committees during the same time period, exceed the sum of \$500.

C. The professional business entity shall have a continuing duty to report any violations of this Chapter that may occur and to report any additional contributions to New Jersey state and/or county political party committees above the amounts set forth in Subsection B of this section during the negotiation or duration of a contract.

D. The sworn statement required under this section shall be made prior to entry into the contract or agreement with the Township and shall be in addition to any other certifications that may be required by any other provision of law.

§ 95-5. Penalty.

A. All Township of Lower professional service agreements shall provide that it shall be a breach of the terms of the government contract for a professional business entity to violate § 95-2 or to knowingly conceal or misrepresent contributions given or received or to make or solicit contributions through intermediaries for the purpose of concealing or misrepresenting the source of the contribution.

B. Any professional business entity who knowingly fails to reveal a contribution made in violation of § 95-2 or who knowingly makes or solicits contributions through intermediaries for the purpose of concealing or misrepresenting the source of the contribution shall be disqualified from eligibility for future Township contracts for a period of four calendar years from the date of the violation.

C. Nothing herein shall be deemed to apply to contributions made to any county or state campaign committee, candidate or officeholder, or to any county or state political party committee, however, such contributions are subject to the disclosure provision that may apply as set out in § 95-4C.

§ 95-6. Procedures to ensure compliance with regulation.

A. Neither the Chief Financial Officer nor his or her designee shall issue a certification of availability of funds without first receiving a certification from the Township Manager that the disclosures required by this chapter have occurred and that such disclosures do not violate the contribution limits set forth herein.

B. No contract or agreement for professional services shall be signed and delivered to any professional business entity without full compliance with this chapter.
