If your event is cancelled due to foul weather or any other cause on your scheduled event date, our commitments to Lower Township will be deemed met and we will be entitled to payment in full.

You may wish to secure rain insurance to cover your such costs. Such insurance will reimburse your expenses if a pre-determined amount of rain falls within a prescribed time frame. You may want to contact Mr. Robert Holmes, Meteorologist/President Spectrum Insurance, 816-810-2346. Allied Insurance also offers rain insurance at reasonable cost. Re: Tree Lighting/Veteran's Ceremony and
42nd Annual Christmas Parade

Dear Mayor and Councilmembers:

On behalf of the Lower Township Rotary Club, I am requesting support for this year's annual Tree Lighting & Veteran's Ceremony, and the 42nd Annual Christmas Parade. We have enjoyed organizing these community events with the assistance of the Police and Recreation Department as part of our "Service above Self" commitment.

The **Tree Lighting & Veteran's Ceremony** is planned for Tuesday, December 1st at 7:00 p.m. at the Recreation Center and the **Annual Christmas Parade** will be Saturday, December 14 beginning at 6:00 p.m. I have included our Certificate of Insurance and will complete the use of facilities form for the Tree Lighting.

We appreciate the support of the Township as we host these events. We are filing the request to the County for the temporary road closings of Breakwater Road from Fishing Creek to Bayshore Road and Bayshore Road from Breakwater to Rosehill Parkway. We will copy the Police Chief on our correspondence to the County Commissioners, and we will make ourselves available to meet with them to discuss the parade details if needed.

Your assistance in spreading the word would be appreciated. We look forward to seeing you join us in these upcoming holiday celebrations. Please let us know if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Claudia Kammer".

**Re: Township of Lower, Cape May County, NJ
Bay Outfall Extensions – *Engineering & Survey Phase*
D&A File #: LT-C-059**

Dear Mr. Douglass:

As per your request, **DeBlasio & Associates, P.C.** is pleased to provide a proposal for final ***Engineering & Survey Phase*** services for the ***Bay Outfalls Extensions*** in Lower Township.

It is our understanding that the Township wants to construct (5) five outfall extensions. The outfall extensions will allow for the existing storm sewer system to function more efficiently. The outfall extensions included in this proposal are located at the following locations:

- St. Johns Avenue
- Ocean Avenue
- Ohio Avenue
- Francis Avenue
- Woodland Avenue

Due to the outfalls' proximity to Delaware Bay and many of them extending below the Mean Low Water Line (MLWL), multiple permits from various agencies are required to extend the outfalls. As such, the following permits are required:

- NJDEP Waterfront Development Permit
- CAFRA Permit Modification
- Army Corps of Engineers Permit

DeBlasio & Associates, P.C. has previously completed the required permits for the outfall extensions which are currently being reviewed for approval. Advertising the project for public bid is contingent upon receiving approval from the responsible government agencies. DeBlasio & Associates, P.C. will commence preparing bid ready construction documents prior to permit approvals as per Lower Township's request.

DeBlasio & Associates, P.C. will be responsible for drafting final construction documents for the five (5) proposed outfall extensions and public bidding services. Furthermore, since the outfall ends are located in tidally influenced areas where surrounding sand shifts over time, DeBlasio & Associates, P.C. will conduct surveys of the outfall ends to ensure the proposed designs in the permit plans remain functional and to confirm that field conditions have not changed.

To complete the above referenced scope of work, our professional service fee is listed below:

➤ Final Engineering and Survey Phase Cost:	\$64,000.00
• Survey	
• Construction Plans and Specifications	
• Public Bidding Services.	

Total Professional Service Fee: \$64,000.00

An engineer's construction cost estimate is attached to this proposal for your reference. Please note this proposal does not include any construction phase services. Upon your request a separate proposal can be provided for these services.

Should you have any questions or require additional information, please do not hesitate to contact me or Will Hanson at our office. We thank you for the opportunity to submit this proposal.

Very truly yours,
DeBlasio & Associates, P.C.

**Re: Township of Lower, Cape May County, NJ
 Lower Township MS4 Compliance
 D&A File #: LT-C-060**

Dear Mr. Douglass:

As per your request, **DeBlasio & Associates, P.C.** is pleased to provide engineering services to assist the Township of Lower with complying with the stormwater management requirements set forth within the Municipal Storm Sewer System (MS4) permit program. The MS4 program requires municipalities to control stormwater discharges, reduce pollutants in stormwater runoff, and implement measures that protect and improve water quality. The Township, as part of their MS4 Tier A Permit issued by the New Jersey Department of Environmental Protection (NJDEP), undergoes Township wide compliance inspections on a regular basis. A compliance inspection was conducted on January 9, 2024 by the NJDEP in which they found multiple areas of non-compliance. The items of non-compliance have been outlined in a letter to the Township dated August 1, 2024 which is attached to this proposal.

DeBlasio & Associates, P.C. will provide the necessary engineering services to resolve the non-compliance findings and set Lower Township on a clear path toward ongoing MS4 compliance. The areas we propose to address include:

1. Assisting the Township in implementing a program to detect, investigate and control localized stream scouring at their MS4 outfalls.
2. Update the Municipal Stormwater Management Plan (MSWMP) which is required every 10 years.
3. Assisting the Township in implementing an Illicit Discharge Detection and Elimination Program.
4. Assisting the Township in ensuring that stormwater facilities not owned or operated by the Township are inspected and maintained pursuant to approved maintenance plans.
5. Assisting the Township in implementing and enforcing a program to ensure adequate long-term cleaning, operation and maintenance of all municipally owned or operated storm water facilities.
6. Assisting the Township in implementing and enforcing a program to ensure adequate long-term cleaning, operation and maintenance of stormwater facilities not owned or operated by the Township.
7. Update the Township Stormwater Pollution Prevention Plan (SPPP).
